PROFILE**

YOUSAFZAI

EGGS TRADERS & POULTRY FARMS

Company Overview

M/S Yousafzai Eggs Traders is a registered company (Registration No. C955423) headquartered in Mardan, Khyber Pakhtunkhwa (KPK), Pakistan. The company specializes in the procurement, candling, and distribution of fresh, Halal-certified table eggs to households, retailers, hotels, and institutional customers across KPK and other regions of Pakistan.

History

Established in 1960, Yousafzai Eggs Traders has over six decades of experience in the egg trading business. Over time, the company has evolved from a traditional trading operation into a vertically integrated enterprise by investing in modern poultry farms and expanding its distribution network.

Farms Development

As part of its growth strategy, the company has entered a new era by establishing poultry farms at the following locations:

OUR MISSION

To become a trusted and leading eggs trading partner by delivering safe, fresh, and high-quality egg products with integrity, transparency, and operational excellence.

OUR VISION

- * To source eggs from certified and hygienic farms
- * To ensure strict quality control and food safety compliance
- * To provide competitive pricing with reliable logistics
- * To build long-term partnerships with customers and suppliers

Business Activities

Yousafzai Eggs Traders is a professional supplier and distributor of high-quality shell eggs and egg products, serving:

- Food manufacturers
- Wholesalers and distributors
- Bakeries
- Hotels and restaurants
- Institutional and commercial clients

The company is committed to consistent quality, food safety, and reliable supply, catering to both domestic and future international market requirements.

FUTURE BUSINESS PROSPECTS

Future Expansion – Industrial Processing

In line with its long-term growth vision, the company is moving towards industrial processing by establishing an Egg Liquid Processing Plant under the name:

The project is in its final stages of completion, and **commercial production is planned to commence by the end of 2026**. This facility will enable the company to enter the value-added egg products market and further strengthen its position in the food processing industry.

Project Introduction:-

Yousafzai Agri Foods (Pvt Ltd) is designed as a high-capacity, technology-driven egg processing business that seeks to transform the poultry value chain in Pakistan by introducing scalable, export-quality processed egg products. The company's mission is to become a market leader in producing pasteurized, food-safe, and ready-to-use egg derivatives for both industrial and institutional consumption. The enterprise is backed by experienced professionals in Food technologists, finance, taxation, manufacturing, and food safety. The project benefits from its strategic location in the Rashakai SEZ, offering tax incentives, infrastructure support, and logistical connectivity via the China Pakistan Economic Corridor (CPEC).

The proposed facility will be initially equipped to process 45,000 eggs per hour, operating 6 days a week, and scaled in phased increments over five years. The operational plan is aligned with a projected annual growth rate and structured as follows:

Year 1: 8 hours/day (initial capacity)

Year 2: 10 hours/day (productivity optimization)

Year 3: 13.5 hours/day (double shift operations)

Year 4–5: 19.5 hours/day (full capacity utilization)

Product Portfolio

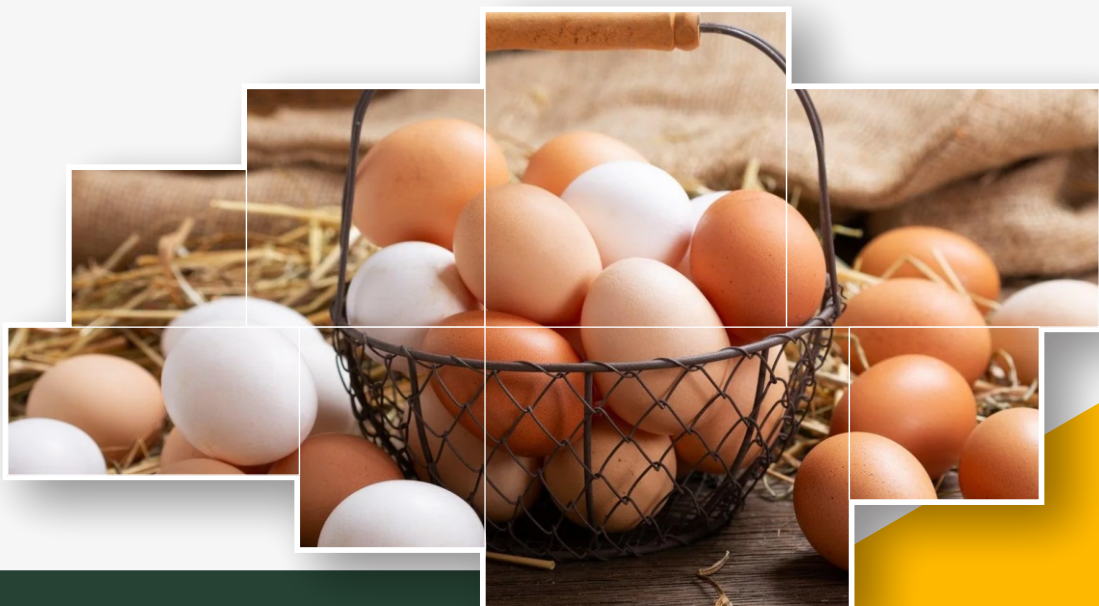

Primary product lines include:

- Liquid Whole Egg
